The apparatus consists of a tube to contain the water, with an elongated slot in one face, through which a wick or piece of heavy cloth is forced. water is poured into the interior. To use the cleaner it is first filled with water and tilted downward until the wick is saturated, when the latter is placed against the window pane and scrubbed up and down until the dirt is removed Then the mop side is applied to drain the water off.

The same caprice of the palate that asists upon apple sauce with roast pork relishes apple croquettes with pork chops. Incidentally it may be ntioned that Miss Towle, a Boston cooking expert, says, assuming that pork chops are eaten at all, that they should never be fried. The only respectable way is to broil them decently In that way what little juice they contain will be retained. But even then they will be so dry that the apple crostewing the apples in a little butter with a tiny bit of sugar. When quite cold, with the aid of a few bread crumbs, shape the apple into croquettes not more than an inch in diameter, roll in crumbs and beaten eggs and fry.

A Woman Known by Her Pantry, The ability of a housekeeper is never better shown than when her pantry and closets are opened for inspection. When the household reins are in the hands of a practical, clear headed woman, one glance along the shelves of either closet or pantry will give a definite idea of the general management. lse. The articles most in use will be in the position most convenient for handling.—Mary Graham in Woman's

Freezing Pies. Many good housekeepers continue the somewhat old fashioned practice of freezing mince pies, considering that thereby the flavor and excellence are much increased. It was something of a surprise, however, to discover recently a very up to date housekeeper putting her apple ples on a ledge outside of her dining room window, proure, that though the assailant was six tected from floating specks by a screen, nches or more taller than himself he for the purpose of freezing them. In beat him and compelled him to run reply to astonishment expressed, it was away. "He was not a good boy, I am asserted that the freezing process was even more beneficial to apple pies than
